## **The October 6th Wheaton Community Radio Amateurs meeting will feature a presentation on D-STAR by Mark Thompson, WB9QZB.**

D-STAR is a digital protocol developed by the Japanese government and Japanese Amateur Radio League. Icom is the first manufacturer to manufacture D-STAR-compatible radios, although the protocol is open to anyone.

D-STAR enables simultaneous digital voice and data transmission. At present, digital voice can be sent on 144, 440 & 1.2 GHz (4800 bps) concurrently with low speed asynchronous data (950 bps) in a narrow 6.25 KHz channel. High speed data (128 kbps) can be sent concurrently using TCP/IP on 1.2 GHz in a 130 KHz channel.

D-STAR repeaters are connected via the Internet, which enables worldwide connections across the D-STAR network. Imagine having a broadband Internet connection via your mobile rig.

Among the many possible applications, D-STAR promises enhanced emergency communication handling - the efficiency of simultaneous voice and data communications, as well as graphic and other large file transfers that are difficult or impossible with current packet technology.

Mark, WB9QZB, will present the D-STAR system in detail, with an update on Icom technology, the radios currently available that support D-STAR, and what is in development. Mark has been actively involved for many years in local packet and digital radio activities, and has been featured on Hap Holly's RAIN Report.

Please join us for an informative and entertaining evening, Friday, October 6th at 7:30 pm. We are now meeting at the First Presbyterian Church in Wheaton. The church is in central Wheaton at the northwest corner of Jefferson and Ellis streets. We meet the 1st Friday of the month at 7:30PM.

If you can't make the meeting visit the Illinois Digital Ham Yahoo Group for more information about D-STAR:

Secretary

## WCRA Meeting Minutes for September 8, 2006

President, **Don N9NYX** called the meeting to order at 1930. Motion to accept the minutes of the last meeting by **Jim W9DHX**, **John WT9Y** seconded, and the motion passed.

President, Don N9NYX opened the meeting with introductions. Then he announced that the next club presentation for next month will be on D-Star. The discussion of the annual budget will be

next month due to **Ken N9HQ** not being present. The current status of the club 2 meter repeater going back up at College of Du Page is that we are waiting for an antenna stand-off, which has been ordered by the college. This evening's program was on "Images over the air!" presented by **Jim W9HDX**, **Gerry K3SIW**, and **Peter N9HDW**. This was very informative, as different ways were described on how we as amateurs can transmit images over the air. Thanks for the great presentations on this mode by these three gentlemen. Vice President, **Bruce K9OZ** was not present this evening. Custodian, **Bob W9BK (KC9HOP)** informed everyone that he now has a new call W9BK. Treasurer, Ken N9HQ was not present this evening. Secretary, **Todd KC9HKN** had a request for club membership cards by **John N9GLZ**. **Paul KA9RVS** requested a current membership roster, and was given one. We had 22 people attend our September meeting.

Hamfest, **John WT9Y** reports the contract for the 2007 WCRA Hamfest at Du Page EXPO, has been signed. Tickets will be \$7 advance and \$9 at the door. There is a need for some volunteers for chairman positions, like Tickets, please contact John WT9Y for this and any other positions that are currently open.

RAB, **Doug W9NJM** reports the 220 repeater parts are in. **Larry KA9KDC** reports about testing for IRLP and to get with the board on costs or to look at new technologies such as D-Star. Jim W9HDX asked about the Milwaukee Radio Amateurs' Club 145.390 repeater getting into our machine.

Hamletter, Don N9NYX asked the membership to update their email addresses as he is still receiving many returns.

Web Page, **Tom N9WBW**. **Tom N9CBA** asked about the status of wheatonhamfest.org relationship with the current w9ccu.org website. Tom N9WBW current Web Page chairman was not present at this meeting. Todd KC9HKN informed membership present that the goal of the web team last year was to get the club on a reliable web hosting site for w9ccu.org. This was accomplished and approved by the current board at that time last year. This issue will need to be resolved by Tom N9WBW, Web page chairman, and John WT9Y, Hamfest chairman, working with Tom N9CBA to resolve the status of the web page wheatonhamfest.org and its relationship with the main club web site w9ccu.org.

Motion to accept reports by Doug W9NJM, **Steve N9N0A** seconded, and the motion passed.

**Marty N9NTM** motioned to adjourn, Steve N9OA seconded, the motion passed, and the meeting was adjourned at 2100.

# October QST Reviewed—Full of Ham Projects

By Jim Ward, W9DHX

## **MICRO R2 KIT RECEIVER STARS ON THE FRONT COVER – PARTS FOR \$85!**

Need a spare receiver for the shack? You can build this beauty from the cover of QST and expect “professional” performance, aided by a furnished PC board and other fancy features. The designer gives you personal instructions on pages 28-32. He is Rick Miller, KK7B, of Portland, OR. The parts come from Kanga-US of Findlay, OH.

## **WEATHER FORECASTERS BEWARE—YOU MAY GET HOOKED ON A BUILDING PROJECT**

This is one for the serious builder and amateur forecaster who would like data from a remote location—such as a repeater site. Randy Koehn, KC5TIL, is a Texan who wanted the best reporting site in his county, and proceeded to assemble the unit, complete with Solar power. He also had to worry about keeping the unit from overheating in the Texas sun. Read his interesting story on pages 38 to 40.

## **ROCK AND ROLL “HALL OF FAMER” BLAMES IT ALL ON HAM RADIO**

Would you believe Bob Heil, K9EID, gives ham radio credit for his success as the head of Heil Radio and an honoree by the Rock and Roll folks for his contribution to the public address system world. The line from his lectures: “Hearing is a physical process. Listening is a mental process” is a classic among audiophiles. Page 49 contains a fascinating interview with this ham of note.

## **AVIATION ENTHUSIASTS—THE “SUN AND FUN FLY-IN” IS FOR YOU!**

Rosalie White, K1STO, is both a ham and a pilot, owning a Cessna Cardinal. Her article on pages 56 and 57 about the No. 2 Fly-In Air Show in Lakeland, FL is a report on the hams who are also in love with flying, from propeller classics, such as the DC-3, to modern-day spacecraft.

## **INCREASING YOUR CHANCES FOR DX WITH PROPAGATION SOFTWARE**

If you would like John S. Raydo’s (KOIZ) opinions on the way to improve your contest score by working the right geography, here’s an article for you. It begins on page 41 and runs to page 44, and is complete with charts, maps, and graphs. John recommends installing two files and following his detailed instructions. That will put you on a level with all the other sunspot “gurus”.

## **GOOD NEWS-BAD NEWS ON VANITY CALL SIGN APPLICATIONS**

Page 77 (FCC NEWS) reports that the FCC has been handling vanity call license applications without any delay or problems. However, the fee is still \$20.80 for the 10-year period, 70 cents more than the \$20.10 proposed by the FCC last March. The ARRL has set up a website on license renewal/modification: it is [www.arrl.org/fcc/memberlicenseinstructions.html](http://www.arrl.org/fcc/memberlicenseinstructions.html).

## **WHISKEY ONE ALPHA WHISKEY GETTING TUNED UP**

The “This Just In” column on page 13 reports that the ARRL HQ station is getting some improvements, partly due to a Corporation for National and Community Service Grant, and the rest from an ARRL Development Fund. Equipment will be updated to include DSP, satellite and digital mode capabilities—D-Star, EchoLink, APRS stations, and other digital modes. The final touch will be to replace the 17 year old Yagis with new antennas. Listen for improved signals!

## **IT IS NOT TOO LATE TO START PLANNING TO SELL ADVANCED TICKETS TO OUR HAMFEST IN JANUARY.**

---

### **From The President's Gavel (Continued from page 2)**

to sound off and let us know whether you like our 'new' look or not.

As I have mentioned in the past, I think if we continue to have interesting meeting programs that more people will want to come out and join WCRA. So I would encourage you to invite those of your ham friends that don't have a club affiliation or want to add one, to come see what we are like.

Does anyone want to run an HF net during the week? Please let a board member know. How about a practice code net either on HF or VHF/UHF? Just throwing out some ideas to help you use some of that equipment that you have picked up on your recent trip to Dayton.

Make sure the number of your takeoffs and landings with the gear down are the same number.

615 W. Jefferson Ave., Wheaton, Illinois 7:30 PM**

WCRA was founded in 1948 and continues to be involved in all facets of Amateur Radio supporting the healthy growth of the hobby through diversification and participation. Our members have always been our most important asset and we would like to see you join us for our next meeting. Our business meetings are followed by a break for conversation, coffee, soda pop, and fat pills. This is followed by an amateur radio related program. We would like to see you there to share the enthusiasm.
